

ST. JOSEPH'S REDEVELOPMENT PHASE I

OAKLAND, CA

Adaptive Re-Use Provides Affordable Housing at a Historic Site

DESCRIPTION Phase I of St. Joseph's Redevelopment includes the adaptive re-use and extensive renovation and revitalization of the historic St. Joseph's building built in 1912 by the Little Sister's of the Poor as a home for the indigent. The project will include 84 units of affordable senior housing, office space and senior garden. The 3.3 acre complex includes six existing buildings and significant landscape most of which will be incorporated into the redevelopment. Financing is anticipated to include: tax credits, historic tax credits, infrastructure funds, and local City of Oakland subsidies.

VISION An impressive renovation and revitalization effort for Oakland's transitional Fruitvale neighborhood that respects the site's historic fabric.

PROJECT REQUIREMENTS Create a secure integrated community of seniors, families and home owners that restores the historic fabric while enhancing density and pedestrian street interaction.

AWARDS Winner of the 2014 AIA Honor Award for Historic Preservation

DESIGN FEATURES

- Restored 5 story brick masonry structure on national historic register
- Salvaged original wood windows, plaster pilasters, capitals, wood and tile floors and wood doors/frames
