

## RESUMÉ

# Courtney Mehta

Architect

### PROFESSION

- Architect, Licensed in California #C39537 and Texas #23293
- NCARB Certified
- LEED AP BD+C

### EDUCATION

- University of Michigan; Master of Architecture, 2009
- Texas A&M University; Bachelor of Environmental Design, 2007

### FIRM RESPONSIBILITIES

Courtney joined VMWP as a Project Architect in March 2022. She is responsible for establishing coordination between colleagues and consultants for various projects and overseeing project progression that is thorough and completed in a timely manner.

### PERSONAL PROFILE

Courtney is a transplant from Texas and is happy to now call the Bay Area home. With a strong passion for sustainability and socially responsible work, San Francisco has always been a dream destination to live and work. Courtney has over 12 years of work experience in an extensive variety of project types ranging from interior renovation to ground-up new construction, working in all phases of development and through various project delivery methods. She is excited to apply her background experience and creative problem-solving skills to generate successful projects for one of the most prominent social injustice issues hampering the Bay Area, affordable housing. In her spare time, Courtney enjoys exercise, exploring the beautiful Bay Area, reading, and cooking.

### ENGAGEMENTS
