

RESUMÉ

Diepriye Olali

Job Captain

PROFESSION

- LEED Green Associate

EDUCATION

- University of Southern California; Bachelor of Architecture, 2014
- Pratt Institute; Undergraduate Architecture Level Program, 2008

FIRM RESPONSIBILITIES

Diepriye is involved in all project aspects from early schematic design through construction administration. He is currently serving as a Job Captain on The 231 Grant Avenue Educator Housing project and The 15101 Washington Avenue Apartments, where he is primarily working on developing the Construction Documents and coordinating with internal staff, consultants, and clients.

PERSONAL PROFILE

He has 6+ years of experience in the AEC industry in both the public and private sector, where he has worked on a wide range of project types from civic facilities to multi-family affordable housing. Over the years he has developed an affinity for addressing California's housing shortage crisis while maintaining a careful eye towards implementing sustainable design solutions that improve the health and well being of the public.

Prior to working at VMWP, he worked as a Job Captain at GPA where he was heavily involved in developing healthy, sustainable and affordable housing for hundreds of low-income and formerly homeless residents throughout The Bay Area. At his previous job he took a particular interest in working on historic renovation projects; addressing long-standing deferred maintenance issues while improving the overall efficiency and experience for the building users.

He has worked closely with a number of nonprofit developers planning, designing and managing complicated projects with budgetary constraints, complicated construction schedules and additional requisites required to meet client funding sources.

Outside of work, Diepriye enjoys travel, DIY projects, and Cuban salsa dancing.
