

## RESUMÉ

# Jason Gonzalez

Designer

### PROFESSION

- Designer

### EDUCATION

- California College of the Arts, Bachelor of Architecture, 2022
- Community College of San Mateo, 2017

### PERSONAL PROFILE

Jason was born and raised in the Bay Area. His passion for providing and designing affordable housing comes from his personal experience and struggle to find housing amidst the housing crisis. Because of rising rents, insufficient opportunities, he understands the disruption that constant moving can have on a person, the roots that are never able to be established in the community.

His desire to be creative and to work toward collective solutions enhances his passion in designing the built environment. He sees the value in listening and understanding various views and stories people experience throughout their life, which molds our shared communities. In his free time, Jason enjoys training in Muay Thai and Jiu Jitsu while also developing his skills on the saxophone. Listening to music and spending quality time with loved ones is also a plus.

### FIRM RESPONSIBILITIES

Jason is currently assisting in design and development documents for a variety of affordable housing projects. His goal is to continue receiving experience in all phases of a project and be a productive team member. He is on path to his Architecture License.
